

# PROFESSIONAL DEVELOPMENT

## JUNE 2024

### ABOUT US

## WHO WE ARE

iLearn Collaborative is an independent 501c3 non-profit organization that provides professional development and consulting support services. Our mission is to create equity in K-12 education by building the capacity of educators to implement student-centered learning.

### OUR PD

## WHAT WE OFFER

iLC's accredited courses offer the flexibility of clock hours or graduate-level credits, which ensures educators can seamlessly fulfill state certification mandates while gaining valuable professional development.

### YOUR LEARNING AT A GLANCE

## TRAINING BENEFITS

- Option to select clock hours graduate-level credits from Adams State University (\$55/credit)
- Free enrollment in the online course aligned with your training
- Hands-on workshops that provide direct instruction for the online course, providing you the opportunity to complete most of it synchronously
- 24/7 access to your expert facilitator for one-on-one instructional support as needed
- Course start/end dates: June 19/21 - August 7

### YOUR WORKSHOP/COURSE OPTIONS

**The Whole Child: Supporting Behavioral Health for Learners of All Abilities:** This training provides a holistic exploration of behavioral health integration in educational settings, empowering educators to seamlessly integrate behavioral health principles, cultural awareness, and legal considerations into their teaching practices, fostering an inclusive and supportive educational experience for every student, regardless of their abilities. Addressing trauma- and evidence-informed instruction and the importance of social-emotional well-being in the classroom, this training, which is part of the online course, meets the Special Education and Behavioral Health Licensure Renewal Requirements for Colorado educators "seeking to renew any teacher, special service provider, principal and/or administrator professional license that expires on or after June 30, 2025."

**Introduction to AI (Artificial Intelligence):** This training offers a comprehensive exploration of the fundamental concepts, techniques, and applications of artificial intelligence (AI). Participants will delve into the fascinating world of AI, understanding its historical context, theoretical foundations, and real-world implications. By the end of the training and its course, participants will emerge with a solid understanding of AI fundamentals, equipped with the knowledge and skills to understand the value and impact it holds for use in K-12 classrooms.

### YOUR ONSITE WORKSHOP SCHEDULE

The Whole-Child: June 19, 2024 - 8:00 AM - 4:00 PM (MT)  
Introduction to AI: June 21, 2024 - 8:00 AM - 4:00 PM (MT)

**LOCATION:** 2020 Clubhouse Drive, Greeley, CO. 80634
